Travelling

Thousands of people spend their holidays travelling. They travel by bus, by train by plane or in their own car. They travel not only to enjoy picturesque places but also to see ancient monuments and other places of cultural and historical interest. Travelling by air has some advantages. It is convenient and much quicker. Hiking is becoming very popular. People like to spend their days off in the country. There are nice places with forests, lakes and rivers near every town. It is pleasant to spend a day chatting, joking and singing with friends on a river bank, a lakeshore or round a campfire in a forest, having a good time and a good rest.
